SURVEY QUESTION: 46

Average expenditures relate to responding schools(n).

Recurring and non-recurring components of total expenditures in schools, percentages thereof, have been worked out from absolute total expenditures (and not from average expenditure) - and their break-up for recurring(R) and non-recurring (NR) expenditures for the two categories and for each of five years.

Rounding off errors may be expected while adding up percentages to make up hundred. The difference, if any, to make up hundred may account for the not-available(...) percentages.

Non-recurring expenditure is made up of (i) Land Purchase (LP); (ii) Buildings Consstruction (BC); (iii) Buildings Extension (BE); (iv) Library Equipment(LE); (v) Science Laboratories (SL); (vi) Workshops Equipment(WE); (vii) Arts and Crafts (AC); (viii) Subjects Rooms (SR); (ix) Furniture Purchase (FP); (x) School Transport (ST); and (xi) Other items (OI).
